FUTURE FACILITIES  
SUMMIT

PROUD PARTNER

POWER

FMA Summits - Connecting all facets of the Intelligent Building

*May 15<sup>th</sup> – 17<sup>th</sup>, 2017 Château Élan Winery & Resort, Atlanta GA*

Day 1 - Monday May 15<sup>th</sup>, 2017

6:00 - 8:00

Cocktail Reception/Dinner – Terrace

Day 2 – Tuesday May 16<sup>th</sup>, 2017

Time	Presentation Title	Presenter(s) Name(s)	Presenter(s) Title(s)	Organization
7:00 – 8:00	Breakfast – Atrium			
8:00 – 8:20	On Site Energy Solutions For Commercial And Industrial Users	Peter Christeleit	Sales Manager	GE Distributed Power
		Hari Sivasdas	Business Development Manager	
8:20 – 8:40	Connected Lighting with Eaton	Keith Moreman	Vice President of Vertical Markets	Eaton Lighting
8:40 – 9:00	How the Integrated Workplace Management System will drive the Future of Smart Buildings	Robert Hemmerdinger	Director, Business Development	Schneider Electric
9:00 – 9:20	Your Building is Talking, but Are you Listening?	Brent Hodges	IoT Strategy and Planning, Dell EMC	Dell EMC & KMC Controls
		Richard Newberry	Chairman Strategic Advisor KMC Controls	
9:20 – 9:40	Energy At Your Service	Eric Bradley	Chief Strategy, Government & Regulatory Affairs, Communications & CSR Officer	ENGIE North America
9:40 – 10:00	High-Performance Heat and Hot Water Solutions	Harold Krebs	Vice President, Strategic Accounts	AERCO a Watts Brand
10:00 – 10:30	Break - Exhibit Area			
10:30 – 10:50	Sustainability in the Coca-Cola System	Nicole Smith	Customer Sustainability Director	Coca-Cola North America
10:50 – 11:10	Enable Connected Business Applications via Unified Lighting & HVAC Sensory Platform	Lance Hollner	Vice President & Business Development Group Leader	Acuity Brands Inc.
11:10 – 11:30	Energy Management Outgrows its Traditional Role	Daniel K. Weeden	President, Energy Engineering Division	Edison Energy
11:30 – 11:50	Heating with Nano-Technology	Skip Mauro	Director of Sales	STEP Warmfloor®
11:50 – 12:10	Roof Asset Management, Information, and Effective Decision Making	Todd Kaska	Strategic Account Manager	Tecta America Corporation
12:10 – 1:10	Lunch – Atrium			
1:10 – 1:30	Driving Health Through Built Environment Initiatives	Liz York	Chief Sustainability Officer	Centers for Disease Control and Prevention
1:30 – 1:50	A New "Game Changing" Solar Thermal Product	Don Frank	Partner	Solar UV Solutions
1:50 – 2:10	Innovation at the Confluence of 90.1 and 62.1	Charley Brown	President and Chief Executive Officer	Specified Air Solutions
2:10 – 2:30	LED Lighting As Part Of A Total Facility Strategy	Ken Sisson	President – Lighting	Rogers Electric
2:30 – 3:00	Break - Exhibit Area			
3:00 – 3:20	Asset Management Efficiencies in Aviation	Charles Marshall	Director Asset Management	Hartsfield-Jackson Atlanta International Airport
3:20 – 3:40	West Roofing Systems: The Official Roofer of Cleveland Hopkins' International Airport	Jack Moore	President/CEO	West Roofing Systems, Inc.
3:40 – 4:00	Chilled Beams	Nick Searle	Chief Engineer	Titus
4:00 – 4:20	Better Buildings and Beyond: A Summary of Atlanta's Energy Policy	Ruthie Norton	Deputy Director	City of Atlanta
4:20 – 7:20	Cocktail Reception/Dinner – Exhibit Area			

Day 3 – Wednesday May 17<sup>th</sup>, 2017

Time	Presentation Title	Presenter(s) Name(s)	Presenter(s) Title(s)	Organization
7:00 – 8:00	Breakfast – Atrium			
8:00 – 8:20	TBA	Rex Hamre	VP – Sustainability Director	Jones Lang Lasalle
8:20 – 8:40	LG Hotel Case Study for Owners	Jonathan Jackson	Southeast Regional Sales Engineer	LG Electronics USA, Inc.
8:40 – 9:00	Reducing Thermal Energy Use Across a Fortune 50 Portfolio	Robert Triebe	COO	Thermal Energy International Inc.
9:00 – 9:20	The Power of Sustayn	Joe Stalnaker	VP of Business Development	Avangard Innovative
9:20 – 9:40	Wired to serve you better: Commercial Models of LED Retrofit Programs	Mark Kelly	Executive Director, National Accounts	Leff Electric
		Gene Siepka	Director of Sales – General Lighting (Ushio America)	
9:40 – 10:00	Energy Efficient & Environment Friendly Absorbers for Future Facilities	Rajesh Sinha	Director Americas	Thermax Limited
		Nitish Rai	Regional Manager	
10:00 – 10:30	Break - Exhibit Area			
10:30 – 10:50	Buy, Sell, Repair - One Source For All Your Facility's Needs	Kyle Rodier	Branch General Manager	Radwell International, Inc.
10:50 – 11:10	Improving Productivity and Reducing Energy Consumption	Michael Bruce	Director of Marketing	Filtration Group
11:10 – 11:30	The Path to AI Enabled Smart Building Deployment	Steve L'Heurux	CEO	Igor, Inc.
11:30 – 11:50	Next Level Sustainability through Environmental Management	Jason Brasfield	Associate Director of Environmental Programs	UASafeState- The University of Alabama
11:50 – 12:10	Sustainability 2022, Energy and Climate Management Strategy at Kimberly-Clark	Juan Marin	Corporate Senior Energy Engineering	Kimberly-Clark Corporation
12:10 – 1:10	Lunch – Atrium			
1:10 – 1:30	Greening from the Ground(s) Up: Educating for Sustainability at Georgia Southern University	Lissa Leege	Director, Center for Sustainability	Georgia Southern University
1:30 – 1:50	Where Are The Vulnerabilities?	Benjamin Medlin	Cyber Network Operations	Georgia Tech Research Institute
1:50 – 2:10	Recycling Everything: the Journey to Zero Landfill	Russ Delozier	Director of Environmental Innovation	J+J Flooring Group

THANK YOU FOR ATTENDING THE FUTURE FACILITIES SUMMIT

Upcoming Summits:

Acuity Brands, Inc. (NYSE: AYI) is the North American market leader and one of the world's leading providers of lighting and building management solutions. With fiscal year 2016 net sales of \$3.3 billion, Acuity Brands currently employs approximately 12,000 associates and is headquartered in Atlanta, Georgia with operations worldwide.

AERCO is rapidly growing and recognized as the North American market leader in providing high-efficiency, cost-effective commercial and industrial heat and hot water solutions for lodging, education, healthcare, multi-family housing, government and office building customers, expanding to include hybrid climate and energy recovery solutions.

We are a recycling and waste optimization company that implements custom processes for a positive impact to our clients, and the environment. We utilize smart equipment and real-time data analytics to evaluate success through Capture Percentage Rate™ allowing recyclables to be captured at the generation point rather than diverted as a last step.

BioStar Renewables specializes in sustainable energy projects focused on Solar, LED Lighting, Mechanical / HVAC and Biogas. BioStar has extensive experience working with a range of clients, including national companies with multiple locations in most industrial and commercial categories.

Dell's broad portfolio of key IoT technologies, combined with a rich partner ecosystem, reduces the complexity, lowers the risk and increases the speed of deploying IoT initiatives.

KMC is committed to providing industry-leading Internet of Things-enabled automation solutions with leading tech suppliers to increase comfort, convenience and help reduce energy usage.

Eaton's Lighting Division delivers a range of innovative and reliable indoor and outdoor lighting and controls solutions, specifically designed to maximize performance, energy efficiency and cost savings. The Eaton Lighting business serves customers in the commercial, industrial, retail, institutional, residential, utility, and other markets. From 12 locations in the U.S., Canada, Mexico and Great Britain, more than 5,500 employees develop and sell lighting products across four business segments: ambient; emergency and controls solutions; outdoor and architectural solutions; and recessed and residential solutions.

Edison Energy, a subsidiary of Edison International, is an independent energy advisory and solutions integration company with the capabilities to develop and implement a broad range of energy solutions for commercial, institutional and industrial companies. Our team is focused on helping our customers reduce their energy costs, improve the environmental performance of their operations, ensure energy resiliency, and manage exposure to energy price risk across their entire portfolio.

Electro Plastics Inc. / STEP Warmfloor® is an engineering company and the leading manufacturer of self-regulating heaters. For over 35 years we have been committed to providing sustainable, safe, energy efficient radiant heating solutions through continuous innovation. All products are manufactured in the USA in our high-capacity automated lean manufacturing plant.

ENGIE manages a range of energy businesses in the United States and Canada, including electricity generation and cogeneration, liquefied natural gas (LNG) and natural gas distribution and sales, retail energy sales, and comprehensive services to help customers run their facilities more efficiently and optimize energy use and expense. Nearly 100 percent of the company's power generation portfolio is low carbon or carbon-free. Globally, the company is present in 70 countries and employs 153,000 people, including 1,000 researchers in 11 R&D centers.

Filtration Group is making the world safer, healthier and more productive by creating unparalleled filtration solutions for life science, industrial technologies, fluid and environmental air applications. The HVAC division is one of the largest filter manufacturers in North America, producing over 40 million filters each year. Dedication to generating cleaner air efficiently to deliver energy savings for customers has driven their success. With distribution throughout North America, quality filtration is never far away.

GE Distributed Power is a global leader in on site power generation solutions. GE's solutions consist of natural gas reciprocating engines that range from ~200 kW to 10 MW in output. Primary application of GE's engines is to meet on site power, resiliency and thermal needs both economically and sustainably. Our customers span a variety of commercial & industrial sectors. Additionally, our innovative business models via GE and partners can help mitigate project financing concerns by making energy investments easier for you.

Hannah Solar is a full service solar integrator dedicated to providing the very best in engineering, products, installation and operations & maintenance of solar arrays, electric vehicle (EV) charging stations, Tesla® Powerwall 2 storage systems and Generac® backup generators. Our team is comprised of NABCEP certified solar experts, licensed master electricians in GA, AL, MS, NC, SC, & TN, project management professionals, business development managers, designers and installers—working together to serve our clients as a reliable and experienced resource in sustainable energy integration.

Igor provides building owners and businesses with an intelligent, scalable Power-over-Ethernet (PoE) lighting platform via a proven, simple yet highly configurable AI-driven enterprise software solution. This elegant technology delivers a clear path to cost-effective AI-enabled smart building deployment, delivering the best ROI in the industry.

Leff Electric is an Electrical Supply Distributor since 1921. Distributing major manufacturers' electrical products nationally, we are comprised of six divisions: Energy Solutions, National Accounts, Lighting Projects, Gear Projects, Magnum Cable and Leff Managed Inventory. As interest in LED Lighting has grown, Leff National Accounts is in the business of coordinating large LED retrofit programs. We provide "Best in Class" commercial models and capabilities to seamlessly retrofit fleet sites to LED coast-to-coast. Our clients enjoy favorable ROI via maximized utility rebate application, reduced power demand, and lowered maintenance expenses.

LG provides industry-leading air conditioning technologies for the facilities management market enabling total sustainability and complete building management.

NanoLumens, creates display visualization solutions that deliver truly immersive customer experiences and great return on investment. Our fully custom display solutions provide engaging customer experiences and the ability to realize solid returns on investment. Our brilliant displays, designed and assembled in the USA, are so thin, lightweight and curvable, they fit almost anywhere. With quality backed by an industry leading, Six Year Warranty, NanoLumens is your collaboration partner for visualization solutions that live up to your imagination.

Radwell International stocks and sells New and Surplus Industrial Automation, MRO, Pneumatic, Motion, Electronic, Hydraulic, HVAC and Electrical Control Equipment for plant floor and facilities maintenance machinery. We also have full component level Repair capabilities for all Industrial Electronic and Electrical equipment. We also buy Surplus Industrial Controls.

Riello is a world leader in design and manufacturing Commercial Burners and Stainless Steel Condensing Boilers. Headquarters located in Italy with state of the art manufacturing and testing facilities along with manufacturing and distribution facilities in the USA and Canada to serve and satisfy the North American heating markets. Riello burners and condensing boilers serve a variety of installations from large institutions, schools, hospitals to hotels with either straight gas or dual fuel burners and condensing boilers.

Rogers Electric is a national self-performing lighting, electrical, and technology solutions provider licensed in the continental states. Rogers performs electrical and lighting service and maintenance: construction, remodel and multi-site projects; and energy audits and retrofits. We support our clients a call center and dedicated project and account managers.

Schneider Electric is the global specialist in energy management and automation. With revenues of \$26 billion US dollars in FY2016, our 160,000+ employees serve customers in over 100 countries, helping them to manage their energy and process in ways that are safe, reliable, efficient and sustainable. Our technology, software and services improve the way our customers manage and automate their operations. Our connected technologies reshape industries, transform cities and enrich lives.

Solar UV Solutions is the exclusive distributor of the SunQuest 250 solar thermal collector. We specialize in delivering free heating solutions to large commercial, industrial, and agricultural businesses. By utilizing evacuated tube technology, our solar products are capable of producing 300, 000 BTUs of clean, usable energy per day.

Design, produce and deliver semi-custom HVAC solutions that ensure an awesome customer experience. Products include dedicated outside air, gas fired make up air, low intensity radiant heating, and pool dehumidification. Industry leading brands include Addison, Rapid Engineering, Roberts Gordon, Dectron, and PoolPak.

Founded in 2009, Sustainable Solutions Group, LLC. is leading the industry in industrial & commercial waste reduction and recycling solutions nationwide. SSG GLOBAL, a division of Sustainable Solutions Group, LLC., is dedicated to developing turn-key comprehensive waste reduction programs for its clients by increasing efficiency and reducing operating costs. SSG GLOBAL is a full service management company that continues to build successful relationships with a large portfolio of industrial, commercial, retail & higher education clients comprised of local, regional and national footprints.

Tecta America Corp. is the premier commercial roofing contractor in the U.S., providing roofing solutions nationwide. Tecta's strength starts with each of our operating locations. Each location has local management that understands and responds to the needs of the customers in their marketplace.

Thermal Energy International Inc. is an established global supplier of proprietary and proven energy efficiency and emission reduction solutions to the industrial and institutional sectors worldwide. Thermal Energy International Inc. has offices in Ottawa, Canada as well as Bristol, U.K., United States, Italy and China. Thermal Energy International Inc. is a Canadian publicly-traded clean-technology company with shares listed on the TSX Venture Exchange (TSX-V) under the symbol TMG.

Thermax is a global an engineering company providing sustainable solutions in energy and environment. Thermax's business portfolio includes products for heating, cooling, water and waste management, and specialty chemicals. Thermax Cooling Business offers absorption cooling systems which run on a number of heat sources and can be used in Air Conditioning, Process Cooling as well as heating for industrial as well as commercial applications.

ThinkLite is a global lighting efficiency company that designs, manufactures, distributes, and installs the world's most energy efficient LED retrofit lighting solutions, often cutting electric consumption by 70% while improving light levels. Products specifically retrofit to existing fixtures, in order to keep LED adoption costs reasonable. The Company is headquartered in Natick, Massachusetts with operations around the world.

Since 1946, Titus has been the leader in the air distribution industry. We've redefined how technology drives, influences and supports air management. Being first to market with the most innovative approaches to air distribution and participating in shaping industry standards, we continue to be the leaders in the industry.

TPI Corporation is a U.S. Manufacturer of Industrial, Commercial, and Residential Electric Heaters for fixed and portable applications. We offer a full-line of Cabinet, Wall, Unit, and Draft Barrier Electric fixed heating systems, along with full-line of electric infrared heaters and control equipment for indoor and outdoor areas.

West Roofing Systems, Inc. is dedicated to being the only commercial & industrial roofing contractor you'll need. Our award-winning team specializes in sustainable spray polyurethane foam roofing systems. As a turnkey company, we provide a variety of single-ply membrane roof applications including TPO, EPDM, and energy efficient foam roof systems.
